

Progress Report - 1

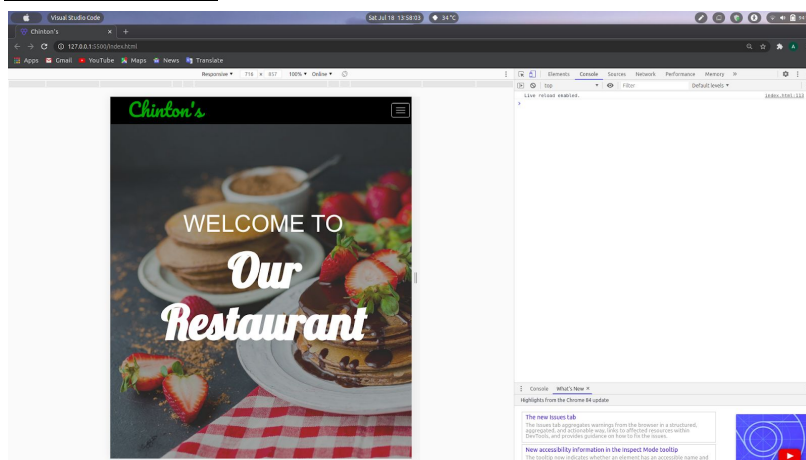

I have designed the whole website in adobe XD and collected images from canva . My theme is bakery or restaurant so i am designing a website on restaurant. I have created custom logo from canva. After completing the ui i made the home / landing page with navbar and logo. I am currently working on Menu page and about page section in coding. I have commented where the page start and page ends. I am using bootstrap html, css and javascript. All the screenshot are from my local server website run. Copyright are of canva,bootstrap adobeXD.

I am currently working on the menu section,about section i will upload the rest work done in next report.

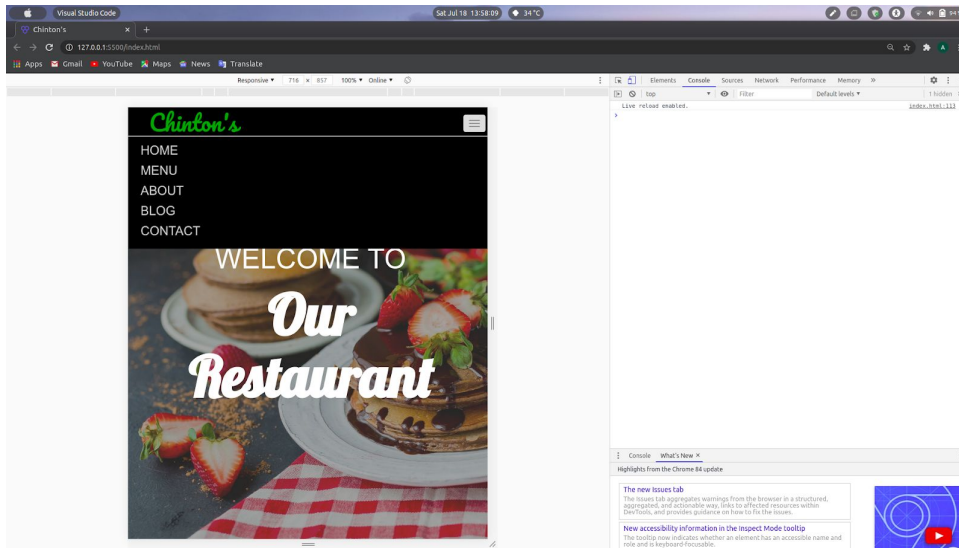

Full website view

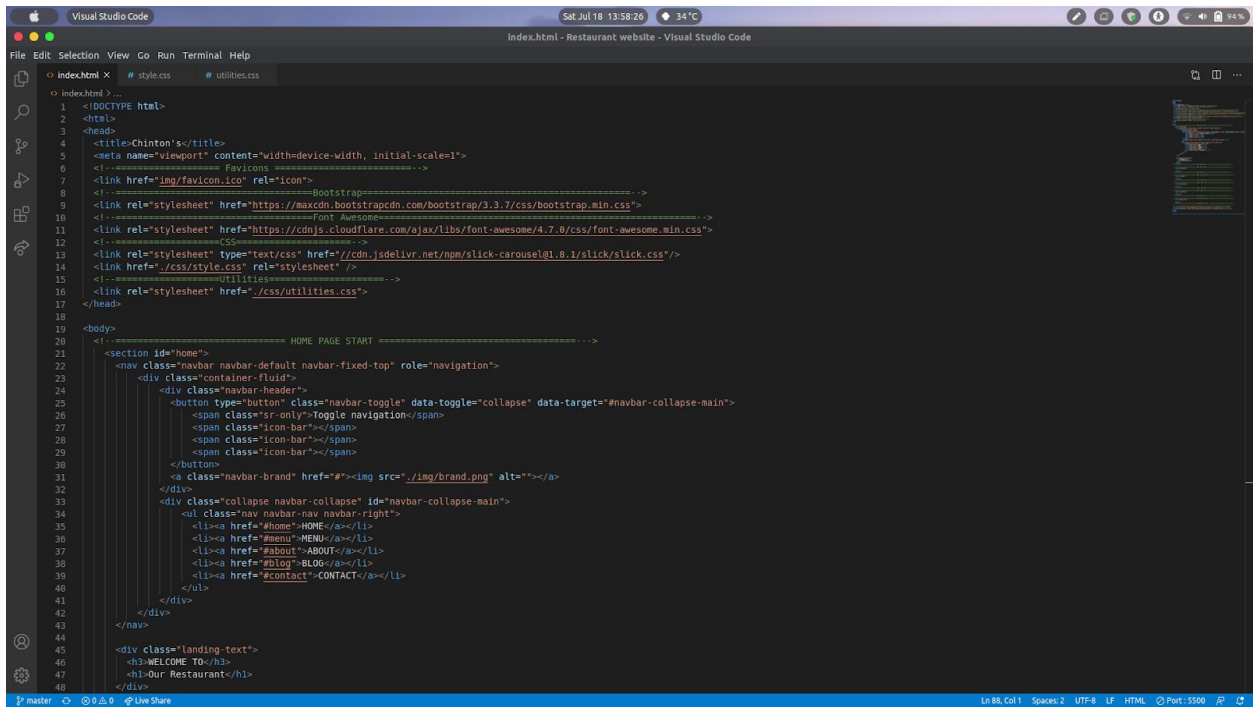

Mobile or tab view

With Working Navbar

Code Till now including css
